To Whom It May Concern:

This letter is our recommendation from the Central church of Christ family for **Jerrie Barber**. Jerrie served the Church and this church family as the pulpit minister for eleven plus years, from April 1977 to June 1988. Jerrie is an outstanding minister of the gospel and his family is held in warm esteem by the Central church of Christ family. Jerrie and his family, wife Gail and his children Jerrie Wayne and Christy, who we watched growing up, developed some strong relations with the Central church of Christ and made a strong impact in this church and community for the Lord.

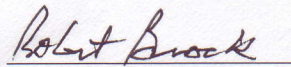

Jerrie along with his sound understanding of the scriptures was great to work with and brought many creative ideas and programs for strengthening the church family and spreading the Gospel. One of his most significant contributions was his training program for presenting the Open Bible Study. He also did a question and answer newspaper column in the Dalton paper that was well received.

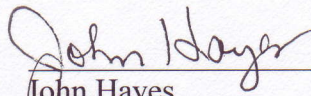

It was in Dalton, along with the late Christian Counselor James Jones, that he started his church leadership programs that have grown and become an important resource to the churches of Christ.

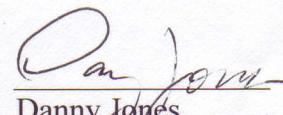

During his tenure in Dalton there were many conversions and the church family was strengthened. It was Jerrie's decision to move back to middle Tennessee to accept new challenges and be closer to family. The Central church of Christ family accepted this decision with much sorrow but with thankfulness for the time the Barber family and been in Dalton.

The Elders of the Central church of Christ highly recommend and commend **Jerrie Barber** for his interim ministry work.

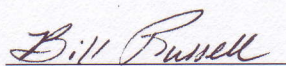

Sincerely,

Robert Brock
